Profile

Breeanna is a recent web development graduate with experience building responsive applications through collaborative group projects. Proficient in HTML, CSS, JavaScript, and React, with a passion for creating user-friendly web experiences and continuously learning new technologies.

Education

FULL STACK WEB DEVELOPER PROGRAM

University of Central Florida
2024

Experience

BREEANNA'S PORTFOLIO: Lead web developer

- Designed and developed a personal portfolio showcasing projects, skills, and contact information with a responsive and unique UI that resembles a scrapbook journal.
- Created a dynamic user experience featuring custom animations, straightforward navigation, and unique user interactivity using React, Vite, Tailwind CSS, and CSS.
- Implemented performance optimizations and best practices for accessibility, SEO, and mobile responsiveness.

VIBRAWOOD GUITARS: Web developer

- Worked with a team to develop a full-stack e-commerce website using React, tailwind CSS, Node.js, Express.js, and MongoDB, enabling secure authentication (JWT) and interactive user experiences.
- Integrated Stripe for online payments, Google API for an embedded business location map, and Instagram API to display recent social media posts dynamically.
- Designed a polished, responsive UI with Figma, ensuring smooth navigation, optimized performance, and high coding standards for scalability and maintainability.

BUCKET: Web developer

- Worked with a team to develop a full-stack bucket list application using Node.js, Express.js, and PostgreSQL with Sequelize ORM to manage and store user data.
- Implemented RESTful API routes with GET and POST functionality for retrieving and adding new bucket list items, ensuring secure authentication with express-session and cookies.
- Designed a polished, responsive UI with Handlebars.js templating, deployed using Render, and protected sensitive information with environment variables.
